

LOVE SCENES IN PLAYS REAL

College Players Play Hookey and Are Married

LIMA BOY'S SECRET IS OUT

Russell Benson Weds Cleveland Girl, Friends Learn

Played hookey a day before final exams and got "hooked" for life.

Summarizing one of the three most important events in the life of Russell Benson, 23, son of Mr. and Mrs. O. O. Benson, 219 S. Scott-st., graduate of Central high school, graduate of Ohio Wesleyan University at Delaware, and member of the Phi Delta Theta fraternity.

The girl is Jabel Salisbury, 22, daughter of Mr. and Mrs. W. P. Salisbury, Cleveland, schoolmate of the Lima boy at Delaware.

The pastor was Rev. M. C. Howe, formerly of the Epworth Y. M. Church of this city.

The date of the marriage was June 25 and the place Springfield, Ohio.

MARRIAGE IS SECRET

Until Thursday it was a secret, carefully kept by Benson's most intimate friends.

Announcement was scheduled to be mailed this coming week end.

The romance—Benson was prominent in dramatic affairs at Ohio Wesleyan.

Salisbury also figured prominently in school plays.

Fate decreed that they should be together often as leads playing opposite each other in dramas produced by organizations of the city.

Eventually, the mimic roles merged in by the couple became more real to them than spectators realized.

Later Benson took up art work at Western Michigan University.

Then the realization of the importance of their mutual interest became evident, and the declarations were made.

Preparations for the secret ceremony met with delay, however, after Benson had secured the marriage license in Cleveland.

He brought it to school with him in his grip.

His friends, desirous of taking a trip, and not knowing of the secret documents contained in the grip, borrowed it as is customary at such institutions—without the consent of the owner.

WEDDING IS DELAYED

Wedding license disappeared for two weeks.

Finally upon the return, Benson and his sweetheart decided to wait until Monday.

It was the day before the final examinations. But they didn't care.

Benson and the girl played hookey and were married.

Returning to their classes the next day they completed their examinations and departed from Lima.

It was a marriage of profound secrecy, but then closest friends knew it was finally revealed.

Wednesday when Benson met an old college chum, and the late hours in the confidences.

Benson, now graduated, will take a position with a Chicago engraving firm.

His wife has another year at Western.

HELD IN KILLING

Chauffeurs Identified as Slayers of Toledo Detective

TOLEDO — (Associated Press)—Positively identified by eye-witnesses as three men who shot Detective William "Dick" Martin and seriously wounded Detective George Bach in a gun battle at the Fulton garage here at noon yesterday when the officers attempted to question the men regarding a motor vehicle they had.

The garage, James Roberts, 23, 1711 Franklin, 25, chauffeur of Chicago, who was being held incommunicado at central police station for investigation.

The third member of the band whose identity police have not ascertained, was found dead in the gutter after the band had been following a battle with the police near Wausau street.

Identification of Mandele and Pats was made late last night by Joseph L. Holben, proprietor of the Fulton garage and James Mandele, an employee at the garage, both of whom are accused of the shooting of Bach.

SHERIFF WILL NOT KEEP GUARD OVER GUY MCCLURE

No extra guard will be maintained at the Allen co. jail, as a precautionary measure, since Guy McClure, editor, 1165 Fairview-ave, is held there.

It is not expected that he will again attempt to take his life.

Sheriff C. W. Baxter said he had no fear that trouble with McClure will be experienced. The prisoner has been very quiet since he has been in Baxter's custody on a concealed weapons charge.

He is held in jail in lieu of \$5,000 bond in await action of the Allen-co. grand jury which convenes September 25.

Sweetens the Stomach Stops Indigestion

Gives Quick, Almost Instant Relief From Any Sort of Stomach Trouble

Find what Boyd Wile, of Newell, W. Va. has to say about Dr. Orin's Great Stomach Remedy. "I suffered with indigestion for eight months, trying a dozen different kinds of medicine with no result. I read that Dr. Orin's Great Stomach Remedy was a good one, and after taking it I found I was able to eat anything. I am feeling fine and have no stomach trouble since, and I am pleased to recommend it to any one having stomach trouble."

Any person suffering from any sort of stomach trouble, acute or chronic, who does not say "that Dr. Orin's Great Stomach Remedy is better than any other they ever took for stomach distress, indigestion or dyspepsia, helped for any reason, whether or not they have the treatment, can have their money refunded. WATER CONSUMPTION IS HIGHEST HERE AT NOON

An auxiliary water pressure gauge has been installed in the city manager's office to record the water pressure and to check up on the new weekly pressure indicator recently placed in operation.

The new gauge is an ordinary pressure appliance with a large dial and hand to indicate the power behind the city water. It has been attached to the same pipes as the new indicator.

Study of the pressure chart shows that the consumption of water in Lima is greatest at noon and the least at midnight.

Since the scarcity of coal has been seen, the pressure of the water has been permitted to decline. This means a considerable saving and at the same time keeps the water supply adequate for all needs, the city manager says.

SHOOTING AFFAIR STIRS XENIA

Feeling Runs High Following Firing on Boys

TRIAL OF SHERIFF DEMANDED

Result of Killing, Wounding Auto Prank Players

DAYTON — (United Press) — Although the situation at Xenia was less tense this morning than yesterday, extra police were sworn in and police on vacations were recalled for immediate duty.

These precautions were taken to prevent any possible violence following the killing of Volney Nichols, 18, the serious wounding of his brother, Dorsey, 16, and the shooting of two other boys, in a crowd of nine country lads, engaged in playing pranks on passing motorists.

The shooting was done by Sheriff Lincoln Funderberg and three deputies. None of them will discuss the case.

All survivors of the fusillade of bullets charge the officers fired without giving warning.

Coroner Humes will conduct an inquest following the funeral of the Nichols boy, which will be arranged today.

Logan Nichols, father of two of the victims, has wired his two brothers to come at once to Xenia. Police are stationed at all depots for the purpose of searching the brothers for weapons, upon their arrival.

The father, is also reported to have said that unless the officers are brought to trial he and the sheriff will have "to shoot it out."

Feeling is still high at Xenia, but it is not believed there will be further shedding of blood but many precautions are being taken.

The Nichols boy, who is shot thru the stomach, has a fighting chance to recover.

DR. STAFFORD IS NAMED PHYSICIAN FOR COUNTY

Dr. Frank P. Stafford, 632 S. Main-st., submitted the only bid for the position of county physician for next year, at a letting held at the office of the board of county commissioners.

He has been serving as county physician for the past year and offers to continue in the same capacity for a yearly sum of \$1,000.

His bid was accepted by the commissioners. It is the same amount paid for similar service in the past year. The term of office includes the period from September 6, 1922, to September 6, 1923.

VOTE ON DAYLIGHT TIME FOR THE CITY ASSURED

That the question of submitting the question of daylight saving to Lima voters will be voted on November 7, was assured Thursday when Joseph M. Madigan, chairman of the board of elections, ruled that the 60 day time limit on filing does not apply to special propositions.

Candidates for office must file 60 days in advance of election day but a resolution calling for a special vote, can be filed later, provided the board is allowed sufficient time to prepare ballots.

A resolution calling on the board of elections to submit the question to the voters of the city, was filed Thursday morning by Harry N. Osgood, city clerk.

A special resolution filed by Mayor-elect board of education requests the election board to provide for a vote on the proposal to convert the schools of the township.

Dr. W. D. Cole Exchanges Pulpits With Colorado Minister

Dr. W. D. Cole, who has been in charge of Trinity M. E. church here for five or six years, is leaving here for Boulder, Colorado, to exchange churches with Rev. C. A. Rowland, who will come here soon.

The arrangement has been under way for six weeks, Dr. Cole said, and was suggested by Rev. Rowland, who is a native Buckeye and who is in his native state, the plan was approved at the Methodist conference at Dayton.

In addition to the lure of the climate, the fact that Boulder is the seat of the University of Colorado appeals to him, Dr. Cole stated.

It gives him an opportunity to participate in his favorite work, that of mingling with a large student body.

Dr. Cole is also attracted by the erection of a new \$200,000 church in Boulder.

His successor had charges in Marion and Ft. Wayne Ind. and Ft. Collins, Colorado, before accepting the Boulder pastorate. He was offered a charge at Morgantown, West Virginia, seat of the state university of that state, but declined in view of the opening here.

The father of Rev. Rowland is well known in Methodist circles in this section. He formerly was a member of the Lima district and was stationed at Lafayette.

Allen-co Legionnaires WILL ATTEND CONVENTION

American Legionnaires from Allen-co will make Dayton their Mecca Sunday and Monday, when delegates from Lima and Allen-co will attend the annual state convention of the organization.

Members of the Lima drum and bugle corps will leave in a special car over the Western Ohio Sunday. Special rates have been arranged for the round trip.

Delegates to the convention from Lima are Maurice Connor, John Harley, Dr. Edward D. Smith, Calvin Selfridge, Bert Wilcox, and Frank H. Hume.

LIMA'S SCHOOL ENROLLMENT

ENROLLMENT in Lima's schools shows a big increase this year. School rooms are jammed and officials are exerting every effort to afford a seat for each child who attends.

The increase in attendance is a good indication. It shows, for one thing, a healthy growth in Lima. It probably shows, also, a desire on the part of parents to keep children in school longer and thus afford them an opportunity to fit themselves for life's battle. This should be the aim of every parent. It is not fair to children to be taken from school or allowed to remain out before they have at least the fundamentals essential today in a world of the keenest competition.

Indications are that more school buildings will be needed in the near future. Money will be required, but this city has never held back in the matter of schools, which accounts for the excellent system we have built up. When more buildings are needed to house the boys and girls, Dad and Mother may be counted on to provide them.

SMALL FACTORIES FOR LIMA

LIMA is attracting several small factories, plants that employ from half a dozen to a score or more men, by its excellent location and facilities, especially transportation. This is a matter of no small import. Small factories are desirable, sometimes more desirable than certain classes of larger ones. The Chamber of Commerce is to be congratulated on the excellent showing it has made in the last year in the matter of bringing industrial concerns here. Each one that comes, no matter how small, helps push Lima along towards the hundred thousand mark.

RUSSIAN FOOTBALL

RUSSIA again is taking great interest in outdoor sports, especially football. This news is in a letter from Dr. Boris Regen, New Yorker, with the American famine relief forces working out of Odessa.

The revival of sports is one of the surest signs yet that Russia is definitely on the road back to normal.

Sports are national safety valves. When people expend their surplus energy and dissipate their nervous emotions in sports, there is not much left for the war spirit to feed on.

When war seethes in the blood, there is little time and attention for games except as part of the physical hardening for battle.

One reason Americans are not warlike is because they vent their energies and emotions on outdoor sports. An insurrection in our country could be tipped in the bud by rushing a couple of big league baseball teams to the center of trouble. How much chance would a general have running competition with baseball? None.

CONVENIENCE

WITH Americans using a billion dollars worth of ice every three years, a man with a shovel-type of brain digs up this interesting fact: The first artificial ice was not made until the last year of the Civil War.

As late as 1880, only 37 ice factories in the whole country. Now the ice plants number into the thousands and turn out over 20,000,000 tons of ice a year. Thousands of conveniences like ice, we take for granted, do not appreciate our comforts as compared with our ancestors. However, while we have more conveniences, we also have more discomforts.

ICE

ONE million dollars a day is what ice costs the American people. The national ice bill for 70 years is as big as the present national debt. Paying for our ice until 1922 is not going to start an economic earthquake. Why worry, then, about the national debt? Somehow, a dollar handled by Uncle Sam looks 10 times as big as a dollar handled by the individual American.

DRAMATIC

THEATRICAL sensation abroad is a satirical play, "The Life of the Insects." It is having a big run at the National Theater of Prague. A New York producer has bought

the movie and stage rights for America.

Characters in the play are made up like huge beetles and other insects. Allegorically they portray the three stages of man's existence—love, action and agony. These three words accurately sum up every human lifetime.

MARKS

THE paper mark is gradually going out of circulation in Germany. Worthlessness is repudiating the mark out of existence.

In its place, Germans are beginning to use foreign money. English pound and American dollar lead in popularity.

Primitive barter also comes in. Two typical cases: A Prussian farm in rented for 6500 pounds of butter a year. A church concert in Warttemberg village charges two eggs admission.

Meantime, Germany works busily. Money is important, but not indispensable.

ARMY

THE regular army has been cut to an enlisted strength of 125,000. This is about 100,000 fewer than a year ago.

Until Europe gets the same idea thru its head, it will continue sinking deeper in the mire.

YOUR HEALTH

COMMON SENSE WAYS TO KEEP WELL

IMPORTANCE OF WATER

(BY DR. E. H. BISHOP)

Count up how many uses there are for water in the human body. Then judge from this number how important a part water plays in our life. It's astonishing.

The human body is built up of countless millions of cells, each one surrounded by a fluid medium, the blood, and the cells then draw up the fluid composed of water, two. In fact, about 60 per cent of the human body consists of this element.

The cells get their nutrition from the blood and cast off their waste matter into it. So, when too little fluid is supplied, the blood maintains a higher specific gravity and the poisonous waste products of tissue or cell are cast off very imperfectly. Thus the body is poisoned by its own excretions.

The uses of water in the body have been summarized as follows:

1. It is incorporated in the tissues of the body.
2. It is the chief ingredient of all fluids of the body—insuring their proper degree of dilution.
3. It prevents friction by moistening the membranes.
4. It distributes the food to the tissues and removes waste matters.
5. It turns the work of the blood.
6. It regulates the temperature.

by absorption and evaporation.
6. It distributes the body heat.
The quantity of water required by each individual will vary according to his size and the nature of his work, but a safe estimate is from two and a half to three pints a day.
The deprivation of water means death to every living thing. One may live without eating for weeks, but without water he would die in a few days. However, excessive consumption also has its bad effects, so care should be taken to take enough but not too much.

OUT OF THE WILD

Home again, home again, back from vacation.
Back to the comforts of civilization.
Back where the bugs don't attend each collation.
Back where the food isn't constantly fried;
Home, where the beds aren't excessively lumpy.
Home, where the tables aren't shaky and lumpy.
Home, where the floors aren't all grainy and lumpy.
After all, home is the place to abide!

Home, where the windows aren't stubborn and sticky.
Home, where the stove isn't smoky and tricky.
Where all the woodwork's not wormy and ticky.
Where you get water by turning a tap;
Where there are mirrors to aid your adorning.
Where milk and papers are brought you each morning.
Life in the country I'm not at all scornful.
Still, I think home's the best spot on the map!

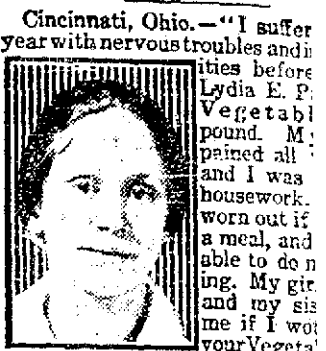

There'll be collectors to bother and hound me.
There will be noise of the city around me.

Worries and cares that have often times bound me.
Once more will give me a pain in the dome;
Business will drive me without much cessation.
Clothes, food and fuel-bills cause irritation.
Nevertheless, now I'm thru with vacation.
Take it from me it is good to be Home!

We Claim The Right Truck Tire Will Cost You Nothing

An undersized, worn out or hard compound solid tire will cost you a great deal in truck expense.
The right tire pays for itself in protection to the truck and saving in repair cost. To do this it must have...

Cushion Traction Mileage

Firestone Tires have those three major qualities today more than ever.

We can refer you to truck owners in this locality who will gladly vouch for this.

Be sure to come in and see what we believe is the ultimate tire for all-around use—the Firestone Heavy Duty Cushion.

Thousands of them are in service. They are not "shelling" nor "wiping" because of a remarkably uniform cure. They are not separating at the base—Firestone has a new process.

They are piling up tremendous mileage records, because of even, slow wear.

They grip the roads—paved or mud—see the traction groove with its gripping shoulders.

They protect the truck because of the live rubber compound designed into a scientific cushion shape.

bayed girl and Mellen's talcum. So, to the post, speaking in fyne fryndliness to Sir Tom Mulligan. And thence saw Johnnie Marsh, Harding's money-lent in this district. And Washington needs the money. Counting noses, they do find there are 122,000 more mouths to feed in the federal service than in 1916. Each having his wife and albeit a babe or two, as annexes. All must gain sustenance from what our poor devils pay to Johnnie, you see.

To the office and sat. Going into this and to that, albeit fynding all well, except in the newsboys noble room. Sadly mutilated by effervescent youth. If you ever tried to control sixty boys ranging from six years to sixteen. Well, why argue? It can't be done. Out to pay my respects to the beloved wife of a dear and old friend. And found many others there, sad in heart. Heard a beautiful word tribute to the honored and revered mother, and caught a tear slipping down my cheek. Which did me good to know.

Towards the town, when picked up by Frank Kommink, in his motor coach. The discourse being on how you can increase the supply of milk by treating a cow humanely, like you would a child. Waved to Johnny Upp, and parked a bit to chat with the Rev. Pat and his charming wife; against their leaving our shire during the fortnight. And Pat loath to go, yet

knowing he must. Lew Larsen has repaired neatly and nicely the broken walk about the vicarage.

To lunch at The Waldo, with gusto. And the best browned potatoes I ever did eat. Out, and to a money, but Harri Jones promises to take it up with Ben Thomas. And that's that. Sold fifty steel and paid last month's garage bill. When will the boulevard tax be due, and now that we have 'em we don't burn 'em. So why get 'em, if you are not going to use 'em? Just like my electric cigar lighter. It never lights. Saw Robert Parmenter, the capitalist and banker, with printery as a bi-product. It usually takes a bank to be able to support a printery.

In the afternoon, walked with C. H. Cory, veteran father of the old C. H. & D. shops, Charlie Daily, the really broker, looking like he had a big deal all but turned. Here's hoping it's a six-car block. Gerald Fess, the expert limotyper, and nephew of the near-Senator-to-be of that noble name.

In the evening, saw and waved to Betty, excited over her first day at school. Remember yours? And that other one. When you took little Billy or baby Mary to enter her in the 12-year battle. Against everything from the chart class to "Omnia Gloria est divisa." Sat long on the front style. Counting of motors. Believing Henry and his Desirable, Trustworthy & Industrious railroad will yet be able to stem the coal strike. So, to bed.

Society News

IN celebration of her 10th birthday anniversary, Miss Charlotte Laughlin, daughter of Mr. and Mrs. J. Lee Laughlin, of W. Market-st., welcomed a group of friends at the Laughlin home Wednesday afternoon at a delightful, informal affair.

Many enjoyable games and contests were arranged for the pleasure of the guests. At 5 o'clock they were invited into the dining room, where a delightful luncheon was served by Mrs. Laughlin and daughters, Misses Sara and Martha. A color scheme of pink and white prevailed in the appointments and trifles, suspended by long streamers from the ceiling, were given as favors.

Guests included Mary and Betty Baxter, Mary and Josephine Barry, Martha Jackson, Josephine Decker, Joan Baxter, Jane Mosher, Jane Matthews, Jean Kelly, Katherine Peters, Maude Carter, Jane Taylor, Oliver Smith, Kent McLean Henry, Rick, Arthur Peters, Alden Kamerer and Richard Taylor.

Miss Clara McPherson, daughter of John McPherson, of S. Third-st., and Clyde Davis, of Detroit, were united in marriage Tuesday morning at Grace M. E. church. The Rev. D. N. Kelly officiated and the attendants were Mr. and Mrs. Stanley Stiles.

The bride was attired in a mid-nite blue tulle cape frock with henna trimmings. She wore a black velvet hat and carried an arm bouquet of pink roses.

After a short wedding trip Mr. Davis and his bride will be at home at 3225 M. Chas. St., Detroit.

During the out-of-town guests for the wedding were Mr. and Mrs. Davis, of Delaware, parents of the bridegroom, and Miss Ethel Stetler, of Toledo.

Miss Rowena Wood, of Lakewood, entertained the members of the Lakewood Guild at her home Tuesday evening. Games and music were enjoyed through the evening and at 10 o'clock the hostess served a delightful luncheon.

Those enjoying the hospitality of Miss Wood were Miss Ruth Woodley, Miss Delamare Ward, Miss Ruth Woodley, Miss Hazel Stewart, Miss Grace Jolley, Miss Elsie Zurnhuth and Mrs. Adla Stetler.

SUSIE SMART'S ADVICE

Dear Miss Smart:

I am a young man of 19 and am what you call a "dilemma." I am in a very bad way and I don't know what to do. I am in a very bad way and I don't know what to do. I am in a very bad way and I don't know what to do.

AN UNHAPPY READER.

First I am going to proceed to tell you a story. Your trouble is that you are extremely self-conscious. Of course, it is your fault that you are self-conscious but it is your fault that you do not overcome this unpleasant feeling.

I do not hesitate to say that when you are attending a party or a social affair of some kind you continually think of yourself, wondering what others are saying about you. If you are doing and saying exactly the proper thing, instead of being so self-conscious, do not think about yourself as an important member, but instead as just one individual out of a large group.

Study those who are gifted with poise. It will be only a matter of time when you can acquire this cherished trait.

Try to forget yourself in others and soon you will discover how interested they will become in you.

Dear Miss Smart:

I am a young man of 19 and am what you call a "dilemma." I am in a very bad way and I don't know what to do. I am in a very bad way and I don't know what to do. I am in a very bad way and I don't know what to do.

MARTHA.

(1) You have adopted the proper attitude and all this will hurt this young man you must impress him with the fact that it is useless and unfair to both you and him to continue a steady friendship. Of course, it is not necessary to break off your friendship entirely, but as long as you accept his attentions you will only encourage him and make him have hopes that, perchance, your friendship may develop into love. This, of course, would not be fair if you are positive that your feelings toward him will never become stronger.

You have made a mistake in keeping steady company with this young man when you have not been engaged to him. No girl should give up all of her time to one young man unless she is engaged to him.

(2) Soak mildew spots in sour milk and salt. Lay in sun. Repeat process until the spots have disappeared.

(3) It is always considered proper for the girl to be the first to speak.

The Demonstration

By Zoe Beckley

On Saturday afternoon Fred drove up to Cleopatra Court in the latest model of Gypsy, all sleek and shining, and sent up word to Mrs. Fuller that he was ready for the demonstration spin. While he waited for her he called on the house phone to Connie and chatted a moment.

Hanna Fuller appeared, in a morning frock as sure to draw the eye as was the smart Gypsy itself. The note this time seemed to be the mad-of-paradise, however, with a touch of the severe. Fred could not restrain a glow of pride at being seen with so smart a figure.

He waved to Connie at her window, but thought her return salute was ungraciously. Inwardly he sighed. Why couldn't women be logical? Why couldn't she think of business and disregard all the rest of it—those who were any rest?

They went quickly along River side drive and, coming to Carpenters, Mrs. Fuller suggested tea.

"She runs beautifully, your Gypsy," she smiled across the little table they had found at the edge of the porch overlooking the Hudson.

"Now tell me the reasons I and my friends should buy her. At least four have asked me to investigate this car for them, you know, I shall believe you because I know you personally and I don't think you'd betray my interests just to sell a car."

No more than I would advise you wrongly on an investment that to me was a commission."

Fred had captured the way she grasped Gypsy's running mechanism and was momentarily thinking more and more of her judgment in general. He launched on a glowing account of Gypsy's excellence.

Gradually he became aware that Mrs. Fuller's attention was being directed to the car.

LEARN A WORD A DAY

TODAY'S word is—INCOMMUNICATED.

It's pronounced—censor-moon-ik-sh-ah, with accent on the fifth syllable.

It means—cut off from communication, and as adopted recently into newspaper English, invariably applies to police detention of a prisoner who is denied the privilege of communication with friends, counsel or others except those interested in the case against him.

It was "fitted" bodily from the Spanish "incomunicado," meaning "isolated," or "without communication."

It's used like this—"The holding by the police of unconvicted prisoners incommunicado (often incorrectly spelled 'incommunicable'), while long practiced in Latin countries, is in gross violation of the captives' rights in all lands where Anglo-Saxon law prevails."

You will appreciate the pleasurable and tasty form in which our food comes to you. It is not only what we serve, but the way we serve you. Both will satisfy.

YANKEES CUT LOOSE FROM DISASTROUS SLUM

TRIM RED
SOX

NEW YORK — Heavy hitting by
Babe Ruth and Joe Judge be-
hind Bob Shawkey's steady
twirling brought the Yankees out
of their slump and gave them the first
game of the series with Boston. The
Yankees collected two singles, a dou-
ble and a homer while Ruth cracked
out a brace of singles and a triple.

The St. Louis Browns, however,
kept a half game ahead of the New
Yorkers by defeating Cleveland 11-3.
Duke Irons pitched his fourth
Ken Williams crashed out his thir-
ty-fifth home run, giving him the
major league lead, while George Sis-
ler brought his batting streak to
37 consecutive games by hitting
safely twice. He is now three games
behind Ty Cobb's record of 49.

Rain halted the Giants and Braves
with the score 1-1 in the fifth inning
and at Pittsburgh was engaged in
exhibition play only. New York re-
sulted in a lead of 1-1 2 games over
the Pirates in the National League
race.

The St. Louis Cardinals dropped to
the second division after losing to
Cincinnati 7-4. Four home runs
helped Philadelphia's victory over
Brooklyn 6-4, while Detroit rallied
in the sixth for five runs to beat
the Chicago White Sox 5-3.

GETS SHOCK

"FILM SENSE"—WHAT IS IT? ASK CARPENTIER

(BY ESTHER WAGNER)
GORGES CARPENTIER, prize-fighting idol of Europe, has surprised the producers of his new starring movie with his "film sense," a London correspondent informs us.
 "Film sense" is a new attribute of players. It is rather vague in definition, but in the case of Carpentier it probably implies he has forgotten he is a prizefighter when he is before the camera as a nobleman. The term might have a more specific meaning applied to some of our American players. And to directors, too. It is probably a lack of film sense that results in some of our actresses rigging themselves up like actresses of a rarebit nightmare, others overplaying their parts, directors and producers adding bunk to gain footage.
 Lack of film sense may cover a multitude of sins of omission.

Carpentier's picture is based on an adaptation by Andrew Soutar of the novel by John Galsworthy. He plays a dual role, a nobleman's grandson and a boxing champion.

The picture is now nearing completion. More than 500 appear in the cast. Flora Le Breton is the heroine. She had the title role in "The House of Mirth" and appeared as "The Companion" in the heroine of "The Great Adventure" in which Lady Diana Manners was starred.

Mary Clare also has an important role. She recently appeared on the London stage as the Dark Lady of "The Sonnets" in Clemence Dane's "Will Shakespeare" and also in Galsworthy's "The Skin Game."

J. Stuart Blackton, the producer, has included in the cast many of the best who appeared in "The Great Adventure." Among them William Luff who was King Charles II

Mae Murray. "The Rose of Broadway" is her latest. Sure, she'll have a dance or two in it.

Alice Brady. She has completed "Missing Millions," her first movie in many months.

and Rosalie Heath who was Queen Catherine.

The movies continue to make a precious and visible inroads upon the popularity of the stage. William Child Shall Lead Them. "Monte"

Cristo. "If Winter Comes." "The Town That Forgot God" and "The Shepherd King" will have extended runs.

THEATRE DIRECTORY

AT THE SIGMA:
 First National's special production "Smilin' Through" with Norma Talmadge in a dual role, continues to be shown at the Sigma theatre. Also a comedy and "News."

AT THE LYRIC:
 Double feature program, starting today, with Will Rogers in "The Poor Relation" and Marie Prevost in "Kissed." The program will remain in effect during the remainder of the week.

AT THE ORPHEUM:
 Graves Bros. delightful musical revue "Saucy Baby," with a cast of excellent singers and dancers, appears again today, matinee and evening, at the New Orpheum theatre. New bill on Friday, matinee.

AT THE QUILNA:
 William De Mille's "Nice People," with a superb cast including Wallace Reid, Lila Lee, Julia Faye and Conrad Nagel, opens a three day run today at the Quilna theatre. Also added features.

AT THE MAJESTIC:
 "Lessons in Love" starring Constance Talmadge, terminates its engagement today at the Majestic theatre. Also a comedy.

THE MOVIE THEATRE:
 Harold Lloyd's "Grandma's Boy" has been running nine weeks at a Los Angeles theater.

Burton King has started production of "The Streets of New York," which was made about ten years ago

in three reels. The cast of the new version includes Tyrone Power, Edmund Broese, Sheldon Lewis, Virginia Pearson, Robert Fraser, Virginia Lee and Kate Blanche.

Uh huh, another title change! "Captain Blackbird" will now be known as "Passions of the Sea."

Fifteen lions and tigers will support Billy Bevan in "When Summer Comes," the next Sennett comedy.

Leah Baird and her company have gone to South America for scenes of her next film.

LUGGAGE
Your Introduction
When You Travel
When traveling, your best introduction is
smart luggage. It need not necessarily be ex-
pensive, but it should be serviceable and in
good taste. Luggage is our specialty and we
are able to offer you a greater assortment than
can be found elsewhere in Lima. You will find
our prices as low or even lower than the aver-
age, and needless to say the quality is of the
best.

SHORT SHAVINGS

B. O. Steiner, Lima Trust company teller, was driving his auto one night when he noticed the engine was over-heated, reports a sympathetic acquaintance.

He was near a friend's home at the time so he decided to stop there for water.

The two chatted. An hour went by and Steiner left, forgetting all about the original purpose of the call.

He remembered it the after he'd gone a quarter of a mile and found the engine over-heated again, reports the acquaintance.

Mrs. Robert Post, 532 W. Highland, says, "The laundryman was late in calling for the wash."

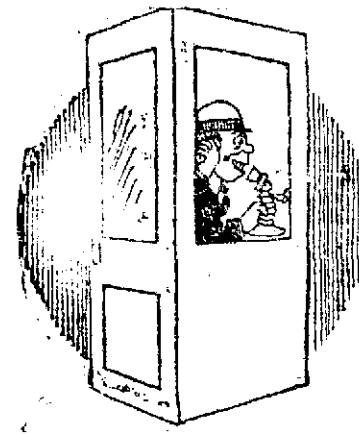

"So I went to the phone, called the number of the laundry from memory and said to the man who answered the phone, 'Send the wagon to 532 W. Highland.'"

"What did you call the police for?" a policeman asked 15 minutes later.

"Instead of giving the telephone girl the number of the laundry, I had given the number of the police station."

That We Could Not Serve You More Promptly

on Our Opening Last Night

We expected a large crowd, but not nearly so large as came. Notwithstanding the little waiting caused by the unusual crowd, the comments were favorable.

By handling so large a patronage so acceptably under the difficulties of opening night, our new organization has proven its ability to serve you well.
